

PRODUCT No. 4824

Plastic lid – green

(Illustrative photograph)

### Technical data

|                            |                    |
|----------------------------|--------------------|
| Material                   | Polypropylene (PP) |
| Designed for               | Bin – type 4822    |
| Length                     | 380 mm             |
| Depth                      | 320 mm             |
| Height (height of grooves) | 190 (40) mm        |
| Flap dimensions (W x H)    | 305 x 170 mm       |

### Attributes

- Made of polypropylene (PP) plastic.
- The height to inner grooves after placing on the bin is 40 mm – after the lid is attached to the bin 4822, the total height of the bin is 650 mm.
- Practice-proof design with swinging lid (possibility of locking the opened lid).
- Freely removable lid allows the use of polyethylene bags.
- A wide selection of colors for the cap allows easy sorting of the waste.
- Bins and lids need to be ordered separately.

### Color variations

- 4823 (Blue), 4824 (Green), 4825 (Yellow), 4826 (Brown), 4827 (Red).

### Product purpose

- Designed as a swing lid for bin type 4822.

### Additions

- The lids and bins need to be ordered separately.
